As the disease progresses, or frequently in its earlier stages, the throat is not to become inflamed, and the patient may be very dry or stuffed with very small nuclei, which, as seen through the mouth, look like small pinpoints of light. The voice may be hoarse, but not mistaken. The voice may be more or less affected, especially on exposure to cold or over exertion, and a hacking cough in the morning, quiet, and during the continuance of the disease, gradually extends to the *larynx*, and the *trachea*, and the *bronchi*, and the *lungs*, and, lastly, the substance of the *lungs*, in their turn, are diseased, and *bronchitis* is not to be mistaken. The patient is not to die in the chest, with difficulty of breathing,

of a host soothing and healing agent, and a most valuable and strengthening medicine. If we would successfully treat the disease.

As a local application for healing the ill-effects of a cold in the head,

**DR. SAGE'S EXTRACTED BROMIDE**

is beyond all comparison the best preparation ever prepared. It is mild and pleasant to use, does not irritate the throat, and contains no strong, irritating or caustic drug or other poison. Its ingredients are simple and harmless, even when scientific and untrained persons use it. It is a most valuable remedy for a most wonderful and valuable healing medicine. Like gunpowder, which is formed by the combination of three ingredients, the best of which are sulphur, saltpetre, and charcoal, the ingredients are simple, but the best of their combination is wonderful in its effects. It is a powerful antiseptic, and a powerful stimulant, which makes possible so many cures, thus affording great comfort to those who suffer in this way. It is equally valuable for the relief of the eye. It is a most valuable and healing, resulting in

tionary. The charming, authentic, melodic and healing properties are truly wonderful. The *Tatari's* Home Field should be applied to the following:

**THE TATARI'S NATAL DOUBCH,** which carries it high up and applies it to all parts of the affected organ passages, and the readers and readers of the four packages of the Heavenly seed with this instruction - which is sold by "magists at sixty cents - will do more good than any other medicine in the world. While the *Tatari's* Home Field is being used locally, we must not neglect to correct the constitutional fault upon which the disease is based. The *Tatari's* Home Field will relieve it, it is very apt to show itself again upon light exposure. If it does not, the weakness is minor and may be cured by the use of the *Tatari's* Home Field, the lungs, liver, bones or other organs or structures. For this reason in particular, the reader must see the great advantage of the *Tatari's* Home Field in building up the strength to a

healthily standard at the same time that the disease in the head is being healed. The only way to be sure he thus more surely, speedily and eminently effected, but you thereby gain against other forms of disease the breaking out of the disease in the blood, the constitution, derangements or weaknesses.

For this purpose I have discovered a medicine that will, I think, be better, and more effectually sought. To designate his wonderful medicine, I have named it in French *la Mère*, or *Mother's Menstrual*.

No other alternative or blood cleanser, and neither pectoral, or throat, bronchial or lung medicine should ever be used with this medicine. It is a blood purifier, and well calculated to work in harmony with, and assist in its operations.

Many blood and cough medicines have been used before with the effects of Dr. Sage's Catarrh Remedy. They should not therefore be used.

It cures Measles, Diphtheria, Whooping Cough, and all the diseases of the throat and lungs.

It not only cleanses, purifies, regulates and builds up the system to healthy standard, and conquers throat, bronchitis and pneumonia, but it also cures the disease from its specific effects upon the lining membrane of the nasal passages it acts internally in restoring the diseased condition, and in restoring the general health condition, and has eradicated the disease. When a cure is effected in this manner it is permanent.

Infectious diseases are caused by the use of food applications only.

A thorough course of attentive and "one treatment" must be used with it. Such a course will not only cure the disease, but the greatest amount of benefit. This will require the use of from six to twelve bottles of my Golden Mistle Therapy.

It has a powerful and healthy effects even upon "common sense," national and scientific principles, by its mild, soothing and healing properties. It has been used by the military and the navy, and its use has been put in per-

fect order by the use of my Golden Medical Discovery. This is the only perfectly safe, successful means of acting upon and healing it.

Heardly a mail arrives that does not bring me new testimony of cures effected by the use of my Golden Medical Discovery. The most recent evidence of what can be done in the treatment of my disease is to be found in the next sentence of the Treatment of my Disease, which has been sent you, and has been done many times again.

In view of these facts, and knowing that I have paid thousands of the word "cure" when I have had a reasonable chance, I merely offer in good faith, \$500 Reward for a case of Catarrh which I cannot cure. I claim no credit for curing myself, or others, but I do claim that I have cured myself, and others, and I am ready to prove it.

I AM QUARANTINED AND FAIRLY FOLLOWED. Why then trifle with this disease, reader? Why put off the use of the sure means of cure until it is too late? It is now time to act. Constipation is the chief of them. Why try to make light of it by thinking that it is only

FRIDAY, NOV. 3, 1871.

**SNOO-PLO.**—A correspondent of the Hingham Journal, speaking of the importance of adopting the plan of a two years term in selecting candidates for Senator, says of the recent Republican Senatorial Convention at West Scituate, "The very month of election, the delegates, haughty and arrogant in their supremacy of numbers, stimulated by that most wire-pulling from Hingham, would have nothing but their own narrow and selfish scheme, namely, to run a candidate of their own, without regard to common decency and fairness. The delegation from Marshfield was minus one, and Rev. Mr. Stevens, of South Scituate, was inaugurated to fill the vacancy. Marshfield was a unit for Mr. Whiting, but this newly made delegate, evidently "born to bluish anarchy," and contrary to all known and honorable usage, gave his vote with the majority delegation, for Henry Humphrey, Esq. Lord Timothy Dexter says, "Some men resemble very much one animal and some other, but they don't know what the devil to make of Lord Timothy was no fool, though in some things he appeared very much like one. And the Marshfield delegation was completed, Mr. Whiting would have been elected. Let those who aided this conspiracy know, that the one principle they were adopted with, was to elect the next candidate to the town of Chatham, West Weymouth, like Hingham, will be left out in the cold, there to nurse their wrath to keep it warm."

The "arrogant delegation from Weymouth" can't laugh in their sleeves at this situation of affairs, as they are fully aware that our town of Weymouth, the largest and most influential town in the District has been left out in the cold, sufficient length of time for them to demand their right of selection of a candidate from their own borders. And they are also impressed with the belief that the choice of Mr. Humphrey was one which would do credit to the District, as it is, unquestionably, one of the most able public men in the District.

**CATCUES.**—The Weymouth Democratic caucus Tuesday evening was well represented from each section of the town. The convention was called to order by Noble Morse, and Hon. Amos Holbrook was chosen President of the convention, and A. J. Randall, Esq., Secretary. He inaugurated the usual custom of a marking list, and Hon. Amos Holbrook received the largest number of marks, and his nomination was made unanimous. This juncture a motion was made to choose a committee of one to confer with the Labor Reform caucus, with a proposition for the two parties to unite and nominate one from each party. L. H. Lord was chosen that committee. Mr. Lord went into the Labor Reform meeting, and on making his business known a motion was made by a member of that convention, to give Mr. Lord an opportunity to state his position, but the President of the meeting, Mr. Lord, declined to do so, and the matter was dropped. Mr. Lord then arose and in a loud, stirring, enthusiastic speech, stated the object, which he had come to the meeting, which, if possible, to unite the two parties together, and a nomination for Representatives be made of one from each party, by so doing they would be sure of electing them both. This was strongly objected to by the President, who seemed determined to elude down any and all propositions that might be made by the Democratic party. Mr. Lord reported back the result of his mission, which was quite different from what was expected, knowing that a large portion of the Labor Reform party was in favor of accepting the proposition which had been offered them. The report of the committee was accepted, and the only course for the Democratic convention to pursue was to nominate a straight ticket. Another marking list was opened for another candidate, and Noble Morse received the largest number of marks, and his nomination was made unanimous. The convention then adjourned, feeling confident of good success on Tuesday next.

**REMARKS.**—The railroad bridge over the river at Weymouth Bridge, built by the Weymouth and Weymouth Bridge Company, is being rebuilt, and the Company have placed the draw with a solid plank structure. The draw has been open since the railroad was built, and the Company have been having trouble with lumber at the mill wharf, during the California excitement, bound for San Francisco. The creek being navigable for vessels of the draft, the Corporation have, we presume, like Jackson, "taken the responsibility," as should occasion ever arise, they would legally be required to open a way.

**ANNUAL MEETING.**—The Annual Meeting of the Weymouth Baptist Church, held last Monday evening, in the vestry of the Baptist Church, Weymouth Landing. The meeting was called to order by the President, Wm. D. Farnell, and after prayer by Rev. E. P. McElroy, of East Weymouth, a committee of three was appointed, by the Church, to receive reports for the year ending, and their report was accepted, as follows:

**A COSTLY RIFLE.**—A most elegant specimen of the Winchester Repeating Fire-Arms, "42 shooter," has recently been forwarded to Weymouth, by the firm of John P. Lovell & Sons, Boston, for the use of an officer in the service of the government. The stock of the rifle is made from the finest black walnut, and the mountings are of gold-plated, richly engraved. The cost of the rifle is \$125. The same firm shipped a large lot of goods in their line at the same time, to the order of a house at that port.

**ROTHEN QUINCY.**—The Dedham Transcript says that at the recent Democratic County Convention at Quincy, Quincy objected to the holding of any more political gatherings in Dedham, as nothing stronger than a riot could be procured to drink in Dedham, and it was voted that the next County Convention should be held in Quincy. Are we to infer from this that Quincy is the champion town for drink?

**G. A. R.**—The next regular meeting of Post 58, G. A. R., will be held Tuesday evening, Nov. 28. Business of the utmost importance is to come before the Post.

**MARSHFIELD.**—We learn that at the annual meeting of the Marshfield Agricultural and Horticultural Society, last Monday evening, the subject of poultry raising was a part of the entertainment at the annual fair, was productive of much debate, and a disposition was manifested by some of the members to object to the raising of the subject, and to fill their places with those in favor of the plan. George M. Baker, Esq., was re-elected President.

**WATER FROM ACCORD POND.**—The Hingham Journal says that the water furnished in the Gazette last week in relation to a supply of water from Accord Pond, was erroneous in its statements, as they are not aware that the water from the pond above tide water has ever been ascertained, and the pond is not on the confines of Weymouth. We were in error as to the pond being situated upon the immediate border of Weymouth, and in relation to the height of the pond above tide water we derived our information from a statement made by a former resident of Hingham, who at one time entertained the idea now advanced of a supply of water for the town from that source, and whose estimate made the height about 100 feet.

We learn from Quincy Bicknell, Esq., of Hingham, who corrects our error, that the pond is probably situated at a greater elevation than 125 feet, and that serious difficulties may possibly be encountered in conveying the water to the lower part of the town, in the superabundance of ledge, which will require much blasting for the "waterway." A survey of the pond, and a canal can determine whether the cost will warrant the town in assuming the work.

**THE LITTLE ARCTIC.** mentioned in Kane's Arctic Expedition, has made its appearance in Weymouth, one of the birds being taken on the premises of Mr. C. S. Williams, last week. They have not been seen in this vicinity for several years.

**THANKSGIVING ENTERTAINMENT.**—The Governor's proclamation reminds us that the annual New England feast-day is near, and it is incumbent on all to bear in mind that the duties of citizenship are deprived of the comforts of life by reason of destitution, and that the poor have with us always. We take occasion to make this appeal for the entertainment in the cause of charity, as it is a duty which we owe to our fellow-men. We have no doubt that the good people of Weymouth will be afforded by a generous patronage of this entertainment, the opportunity of doing good, and that the poor will be relieved by the contributions of the rich. The fair was held at the Weymouth Fair Grounds, on Monday and Tuesday evenings, and the charge of the Principal of the Monks' Young Ladies' School, was a complete success. The pecuniary result being \$160 clear of all expenses, which was applied to educational purposes in the West, as, according to the proclamation of the Governor of Wisconsin, the physical wants of people who have been driven from their homes by the terrible rebellion, and to the disabled soldiers who appeal to their comrades for succor.

**CHARITY FAIR.**—The fair held at Washington Hall, Weymouth, on Monday and Tuesday evenings, and the charge of the Principal of the Monks' Young Ladies' School, was a complete success. The pecuniary result being \$160 clear of all expenses, which was applied to educational purposes in the West, as, according to the proclamation of the Governor of Wisconsin, the physical wants of people who have been driven from their homes by the terrible rebellion, and to the disabled soldiers who appeal to their comrades for succor.

**FAT HOG.**—Mr. Josiah B. Spar, of South Weymouth, has raised a porker this year, which was slaughtered last week by J. Martin, and weighed 773 lbs. The hog was one year and four months old.

**PROOF POSITIVE.**—The large amount paid by prominent business firms for advertising each week in the minds of those who think it does not pay to advertise; but that the expenditure is a "reckless" patron of the press means with corresponding return of trade, is manifest from their own statements. One of our most liberal advertisers informed us a day or two since, in reply to a query as to the results of advertising, that by a tree of the columns of the newspapers, he increased his business 245,000 in one year, the cost of the advertising being but 1-15 per cent. on the amount. We think that may well be called "proof positive" of the benefits of advertising.

All kinds of Gen's. Furnishing Goods, at Williams' Weymouth Landing.

**MEDICAL.**—Dr. W. F. Hathaway, formerly of Boston, has, at the solicitation of residents of Weymouth, who are in favor of homeopathic practice, located at Weymouth Landing, for the practice of medicine and surgery. Dr. H. is a graduate of the Weymouth Medical College of Philadelphia, and brings numerous testimonials to his efficiency as a physician, from the most noted homeopathic practitioners of Boston and other places.

Ladies' Underclothing, in variety, at Williams' Weymouth Landing.

**THE SOCIETY for the Prevention of Cruelty to Dumb Animals** has an announcement of a fair in our columns, which our readers should not fail to notice, and in response to efforts to aid in its success. As a work of humanity the objects of this Society demand the cooperation of all who endorse the Scripture saying, "Be a merciful man to the beasts."

**Protect your boys** from the winter blasts by providing a good outfit of clothing which can be found in all grades, at Williams' Weymouth Landing.

**ESCAPE FROM SHIPWRECK.**—Capt. John Phillips, of Weymouth Landing, had a rather hazardous experience, last week, in coming round Cape Cod, on his passage to Boston, during a severe gale. The vessel came over the shoals in safety, with a southwest wind, and arrived off Nantucket lightship just before midnight, when the wind suddenly veered to North-east, blowing heavily. It being deemed too hazardous to retrace the shoals and gain a harbor in the vicinity, a course was laid for Boston Light, and about 2 o'clock in the morning the flash of a revolving light was seen on the weather-bow, which the Captain at first pronounced to be Boston Light. At the next revolution he discovered his error, the light proving to be the Minot, the vessel, which had been heading about North West, through the night, having fallen to leeward in the tremendous sea which was raised by the gale, and the influence of a southerly current. When the light was sighted, the vessel was somewhat wide out, though on her way to create apprehensions that she might end her career on Cohasset rocks. When she was immediately hauled on the wind, and though the sea rolled so heavily as to break about, filling the decks at every surge, the vessel stood up manfully and made Boston Light and a harbor in safety.

The storm last week gave us an unusual high tide, which penetrated to cellars on a level with the water, and floated out considerable drift stuff from the wharves. The effects of the storm are plainly visible in many places along the shore. On Nantasket Beach, between the head of the beach and the wharves, the sea was away, and large portions of the sand and mud were high water, distributing the sand over the beach, putting it in splendid condition. The debris of the storm is plainly marked by the face of the wall of the sand bank left, from three to five feet high, in many places cut through by the surf, and the rocks and the sea reached nearly to its foundations, and in one place went past the house. At Black Rock, at high tide, the sea broke over the beach between Jerusalem Road and Green Hill, into Accord Pond, destroying the road over the beach.

**FIRED.**—Early on Tuesday morning we had quite a fire. It occurred in a house situated on what is now called Prospect Hill, owned by Mr. John Gillespie. The engines were quickly at the scene of disaster, but in spite of every effort, the house in which the fire originated was totally burned, and the people who lived there, shared a similar fate. The people who lived in the house were fortunately saved in saving their furniture. Both houses were owned by Mr. Gillespie, and were fully insured. Much speculation is indulged in as to the origin of the fire, but it is useless. This is certain that the fire did not do it.

Rev. Mr. Burgess will preach in the Union Congregational church on Sunday next, forenoon and afternoon. We understand that it has been arranged with the Rev. J. Perkins that he shall preach on Thursday next, being Thanksgiving day. A good audience is anticipated to listen to Mr. Perkins, who is a general favorite.

**North Weymouth.**—The Ladies Sewing Circle connected with the Weymouth Baptist Church, North Weymouth, had a procession made some three years ago, by Deacon James Torrey, in regard to purchasing a new lot for the church. The lot was a small one, and the circle would look out for the balance. Mr. Torrey has ever been ready to fulfill his obligations, and the circle has remained rather quiet, no particular action having been taken by the Circle, until the Society had decided to give Rev. Mr. Burgess, the lot, and to have it used for the church. This was done with the approval of the church. The lot was a small one, and the circle would look out for the balance.
